## NETWORKING

---

---

**Feature****Description**

---

**Wireless connectivity**

**Using Sonos S2:** Connects to WiFi network with any 802.11b/g/n 2.4 GHz broadcast-capable router.

**Using Sonos S1:** Connects to WiFi network with any 802.11b/g 2.4 GHz broadcast-capable router. 802.11n only network configurations are not supported—you can either change the router settings to 802.11b/g/n or connect a Sonos product to your router.

---

**Ethernet ports**

Dual Ethernet ports can connect Amp to a wired home network and allow for connection of additional Sonos products.

---

**GENERAL**

---

**System requirements**

Passive speakers with speaker wire, broadband internet, and Sonos app.

---

**Power supply**

Auto-switching 100 - 240V ~ 50-60 Hz  
2.5A AC universal input

---

**Controls**

Touch interface with volume up/down, previous/next song and play/pause.

---

**Status indicator**

Displays the product's connection to WiFi, indicates when the volume is muted, and signals errors.
