---

## AUDIO

---

<b>Amplifier</b>	Six Class-D digital amplifiers precision-tuned for the speaker's unique acoustic architecture.
------------------	--

---

<b>Tweeters</b>	Four tweeters ensure faithful playback of high and mid-range frequencies. The forward-firing mid tweeter provides a smooth center image while two side-firing mid tweeters create stereo separation. An upward-firing tweeter reflects sound off the ceiling when playing Dolby Atmos content.
-----------------	--

---

<b>Woofers</b>	Two woofers maximize low-end output and are angled left and right to support stereo playback.
----------------	---

---

<b>Microphones</b>	<ul style="list-style-type: none"><li>• Far field microphone array</li><li>• All microphones, including voice control, can be turned off using the microphone switch on the back of the speaker.</li></ul>
--------------------	--

---

---

---

**Feature****Description**

---

**Adjustable EQ**

Use the Sonos app to adjust bass, treble, and loudness.

---

**Trueplay™**

This software measures the acoustics of the room then fine-tunes the EQ. Compatible with iOS and Android devices. (Microphone switch must be on.)

---

**Stereo pair**

Turn two speakers into separate left and right channel speakers to create wider, deeper sound.

---

**Dolby Atmos®**

Spatial audio technologies, such as Dolby Atmos, allow creators to place individual sounds all around you in 3D space for a more immersive and realistic listening experience.

---

**Home theater**

Add two Era 300 speakers as surrounds for an immersive surround sound experience.

---

**POWER / CONNECTIVITY**

---

**WiFi**

Using Sonos S2: Connects to WiFi with any 802.11a/b/g/n/ac/ax 2.4/5GHz broadcast-capable router.

---
